S01 Your LEGO collection

Home screen | Catalogue readiness controls entry to Search, Piece query and Build checker.

[Home] [Back]

BRICK BUSTER

Your LEGO collection

Collection and calculations work offline. Images need internet until cached.

My collection

Search and filter sets

Query owned piece

Check target set

Import Rebrickable data

Database: <project>/data/brick_buster.sqlite3

Catalogue not ready: Import the CSV files to begin.

S02 Import Rebrickable data

UC01 | CSV or per-table CSV ZIP import and optional image-link enrichment.

[Home] [Back]

BRICK BUSTER

Import Rebrickable data

Choose a folder containing the nine required CSV files or CSV ZIP files.

CSV folder

[Local folder]

Browse...

Required: themes.csv, colors.csv, parts.csv, sets.csv, minifigs.csv, inventories.csv, inventory_parts.csv, inventory_minifigs.csv, inventory_sets.csv

Validate and import

Load image links from Rebrickable ZIP...

For older CSVs without image links, select all_downloads.zip.

Only existing catalogue items are updated; your collection is retained.

Import complete: <row count> rows. Catalogue ready; saved collection retained.

S03 List My collection

UC03-UC06 | Shared List/Grid mode and selection | Illustrative records.

[Home] [Back]

BRICK BUSTER

My collection

Record complete sets and the number of copies you own.

Add set | **Update quantity** | **Remove set**

View: (o) List ( ) Grid

Set number	Name	Owned copies
A-1	Example owned set A	2
B-1	Example owned set B	1
C-1	Example owned set C	1

Empty state: No owned sets yet. Use Add set after importing the catalogue.

S03 Grid My collection
