Import Rebrickable data

CSV folder

[Choose the local folder containing the required CSV files]

Browse...

Required files

themes.csv, sets.csv, minifigs.csv, inventories.csv, parts.csv, colors.csv,
inventory_parts.csv, inventory_minifigs.csv, inventory_sets.csv

Validate and import

Status area

Working: Validating files and inventory links... Calculation actions are unavailable during import.

Success: Import complete. Catalogue ready. Your saved collection has been retained.

Failure: Import failed: [file / row / reason]. Fix the source data and try again.

A failed reimport keeps the previous valid catalogue; a failed first import leaves the catalogue unavailable.

S03 My collection

FR03-FR06 / UC03-UC06 | NFR01 persistence | NFR02 quantity validation

BRICK BUSTER [Home] [Back]

My collection

Set number	Name	Owned copies
DEMO-A	Example owned set A	2
DEMO-B	Example owned set B	1

Selected: DEMO-A - Example owned set A

Add set **Update quantity** **Remove set**

Feedback: Collection saved.

Empty collection state

No owned sets yet. Use Add set to record complete sets and their copy quantities.

Update quantity and Remove set are disabled until an owned entry is selected.

S04 Search and filter sets

FR02 / UC02 | Reused by Add owned set (UC03) and target selection (UC08)

BRICK BUSTER [Home] [Back]

Search and filter sets

Set number or name

[Enter a set number or name]

Theme (optional)

All themes [v]

Year (optional)

All years [v]

Search **Clear filters**

Set number	Name	Theme	Year
DEMO-C	Example selected set	Example theme	2024

Selected: DEMO-C - Example selected set

Add selected set... **Use as target**

No matches: No sets match these criteria. Change the search or filters.

D01-D02 Collection dialogs

UC03 add copies | UC05 replace copies | UC06 confirmed removal

BRICK BUSTER

[Home] [Back]

Collection dialogs

D01 Add / update copy quantity

Selected set: DEMO-A - Example owned set A

Currently owned: 2

Add mode: How many additional copies?

Update mode: Replacement owned quantity?

Copy quantity

[1]

Save **Cancel**

Error: Enter a positive whole number.

Use Remove set to delete an entry.

Previous quantity remains unchanged.

D02 Confirm removal

Remove DEMO-A - Example owned set A?

This removes all 2 owned copies from the collection.

The set remains in the catalogue.

Confirm removal **Cancel**

After confirmation: return to collection; refresh rows.

After cancellation: close dialog; keep data unchanged.

Add success: confirm new total in the collection.

Update success: confirm replacement quantity.

S05 Query owned piece quantity

FR07 / UC07 | Exact part number + colour | NFR05 errors are distinct from zero

BRICK BUSTER [Home] [Back]

Query owned piece quantity

Part

[Search / select part number and name]

Colour

[Select a colour] [v]

Check quantity

Result area - illustrative values

Part: DEMO-P - Example part | Colour: Red

Available quantity: 3

This total includes all owned complete copies and resolved nested sets; spares are excluded.

A complete minifigure contributes no loose component parts.

None owned / empty collection: Available quantity: 0.

Data error: Cannot calculate quantity: [missing or invalid inventory details].

S06 Check target set

FR08 / UC08 | One target copy | Read-only comparison; no reservation or consumption

BRICK BUSTER [Home] [Back]

Check target set

Target set

DEMO-C - Example selected target

Choose target...

Check buildability

S07 Result panel - alternate states

BUILDABLE: All required parts, colours and complete minifigures are available.

NOT BUILDABLE: Missing required items. Open View missing items for the shortage quantities.

CANNOT COMPLETE CHECK: [missing / invalid / ambiguous inventory details]. Fix the data and retry.

A successful check is for one target copy and may require dismantling owned sets.

View missing items

Shown only after a successful check with shortages (UC09).

S08 Missing items report

FR09 / UC09 extends UC08 only when shortages exist | Example values demonstrate the required columns

BRICK BUSTER

[Home] [Back]

Missing items report

Target: DEMO-C - Example selected target | Copies checked: 1

Type	Identifier	Name	Colour	Required	Available	Missing
Part	DEMO-P	Example part	Red	5	3	2
Minifigure	DEMO-F	Example figure	-	1	0	1

Only items with missing quantity greater than zero are listed.

Missing quantity = max(required - available, 0). Figures match by fig_num.
